

Who are we?

BAND is a independent community group, promoting user involvement at all levels.

We aim to provide help, support and advice to people experiencing life problems.

These problems may include stress, depression, anxiety and other mental health needs.

Drop ins can offer a friendly atmosphere, advice on practical and personal problems, opportunities to learn new skills and the chance to meet others who may be experiencing feeling similar to yourself. Hot drinks are available all day along with lunch.

Most of all we can help you build your confidence and help you to feel happier about yourself.

BAND's mission statement:

To support the people within the Borough of Bolton who live with mental health problems to reach their full potential as defined by themselves, through:

- The promotion of choice and independence
- The provision of support for the individual
- The facilitation of education, recreational, social and enterprise opportunities
- Contributing to the development of services across the mental health economy
